

Sensory Processing Questionnaire

How does your child do with touch?

Poor modulation/tactile defensiveness

Does the child:

- | | | | |
|--|---|---|-----------|
| 1. Object to having teeth or hair brushed? | Y | N | Sometimes |
| 2. Object to being handled when not wearing clothes? | Y | N | Sometimes |
| 3. Avoid being cuddled? | Y | N | Sometimes |
| 4. Avoid being messy? | Y | N | Sometimes |

Poor tactile discrimination or hypo responsiveness to touch

Does the child:

- | | | | |
|--|---|---|-----------|
| 1. Fail to localize/respond to tactile input when out of the visual field? | Y | N | Sometimes |
| 2. Mouth objects? | Y | N | Sometimes |
| 3. Fail to recognize simple objects by touch with vision occluded? | Y | N | Sometimes |
| 4. Enjoy having hair brushed and being touched and handled? | Y | N | Sometimes |
| 5. Prefer to manipulate hard objects? | Y | N | Sometimes |
| 6. Like vibration (manual vibrator)? | Y | N | Sometimes |

Processing of Proprioceptive Input

Does the child:

- | | | | |
|--|---|---|-----------|
| 1. Bite or chew on nonfoods objects? | Y | N | Sometimes |
| 2. Pinch or hit others or self? | Y | N | Sometimes |
| 3. Lean into your handling when using NDT? | Y | N | Sometimes |
| 4. Fail to adjust the body in response to changes in position? | Y | N | Sometimes |

How does your child do with movement?

Hyper responsive to gravity and/or movement

Does the child?

- | | | | |
|--|---|---|-----------|
| 1. Object to being moved backward in space even when the trunk and head are supported? | Y | N | Sometimes |
| 2. Express fear when placed on the large treatment ball? | Y | N | Sometimes |
| 3. Object to having the feet leave the ground? | Y | N | Sometimes |
| 4. Overreact when moved in space? | Y | N | Sometimes |

Hypo responsive to movement

Does the child?

- | | | | |
|--|---|---|-----------|
| 1. Enjoy being moved and/or rocked passively? | Y | N | Sometimes |
| 2. Fail to increase extensor tone when linear movement is provided? | Y | N | Sometimes |
| 3. Throw self back in space? | Y | N | Sometimes |
| 4. Fail to notice when moved in space? | Y | N | Sometimes |
| 5. If the child has the motor abilities, does the child like to twirl and spine? | Y | N | Sometimes |
